

Hunain United Contracting

We build and construct for continuity

About Us

**Hunain is a vision in which
fantasy and reality merge!**

Since Hunain United Contracting Company was founded in 1994, we have had our sights set on making Hunain a recognizable name in the Kingdom's contracting industry.

Although there are many dreams, only ours has come true.

A broad march of achievements that the younger generation completes with pride and a sense of belonging, a march full of accomplishments and growth in the face of significant external changes that may have an impact on some entities but have no bearing on our dream.

We've been on a multi-decade journey during which we've built a solid history that contributes to and strengthens the economy; we uphold all quality and safety standards, and we're concerned about completing projects on schedule and to the highest degree of accuracy and perfection.

Without the efforts of His Highness, the Custodian of the Two Holy Mosques, his dependable Crown Prince, and the strategic Vision 2030, this would not have been possible.

Hunain United Contracting...

**After thirty years of work, we are still following
our original course.**

Our Values

The most valuable and priceless asset we have is our workforce, in which we have made extensive investments over time. We value the efforts put forth by each and every team member. We wouldn't be as competitive and successful in the general contracting industry in the Kingdom of Saudi Arabia if it weren't for their unwavering passion for intricate implementation of high quality.

We make investments in our employees and create trusting relationships with our clients. We continuously construct for quality of life.

Our Vision

Since we laid the first cornerstone for Hunain United Contracting Company, we have had one major objective in mind: we want Hunain United to earn a solid reputation as one of the leading Saudi contracting companies. We take part in sizable pilot projects that boost the economy and elevate living standards.

We constantly create trusting relationships with our clients, and we actively participate in society with our contributions. We carry out and complete our projects expertly and professionally.

The quest for success is an ongoing journey that never comes to an end. Our goals advance, our horizons toward the future widen, and our desire for success deepens with each step we take.

We go above and beyond to fully provide our services to our clients and success partners. We are firmly committed to finishing the work that has been entrusted to us by the specified dates and in accordance with the highest safety and quality standards.

Over time, a lot of businesses that had entered the Saudi contracting market vanished. The surrounding crises and economic hiccups may have intensified the competition, which now favors those who were able to make a name for themselves in the future, and those who diligently developed, built, and construct for the sake of a high standard of living wins.
